

Justin Ging
Chief Product Officer
Atom Computing

Justin is the Chief Product Officer at Atom Computing, a company building highly scalable, gate-based quantum computers with atomic arrays of optically-trapped neutral atoms, empowering researchers and companies to achieve unprecedented breakthroughs.

As Chief Product Officer, Justin is responsible for leading all aspects of product management and customer experience for Atom Computing's quantum solutions portfolio.

Prior to joining, Justin was the Chief Commercial Officer for Honeywell Quantum Solutions, where he led marketing and business development activities including strategic pathfinding, ecosystem and partner collaborations, technology evangelism, and customer pipeline development. He previously led Marketing teams at Samsung Semiconductor, Micron/Aptina, and Analog Devices, driving development and adoption of cutting-edge semiconductor products. He also held Engineering roles at Lucent Bell Labs and Lockheed Martin.

Justin holds multiple degrees from MIT including an MBA Sloan School of Management, Bachelor's and Master's degrees in Electrical Engineering and Computer Science and a Master's degree in Materials Science.
